Bullying Prevention and Intervention Plan

Promoting Healthy Relationships within Positive School Climates

ALEXANDER GRAHAM BELL PS

OUR SCHOOL COMMITMENT

We are committed to establishing and supporting learning and working environments that are safe, welcoming, respectful, equitable, accessible, inclusive and free from discrimination, oppression and harm. Indigenous inherent rights, human rights and equity are at the center of our work. This fundamental commitment to human rights begins with meaningful investment in a Positive School Climate.

A Positive School Climate:

- Ensures that everyone is treated with dignity and respect;
- Expects, welcomes and includes everyone;
- Values, affirms and supports the expression of diverse identities;
- Promotes, protects and upholds Indigenous inherent rights and human rights – including students' right to education without discrimination and employees' right to employment without discrimination;
- Centres the rights of the child/student in ways that are not discriminatory and that do not cause or perpetuate harm;
- Prioritizes relationships, well-being and equity through a Whole School Approach.

While we work proactively to promote positive and respectful interactions, we will also address any behaviour or interaction that is likely to have a negative impact on the school climate, including bullying, discrimination and other forms of harmful interaction. In planning our responses, we will consider and provide support for all impacted staff and students, including those who were harmed, those who witnessed the harm, and those who caused harm.

We will promote a Positive School Climate in both proactive and responsive ways

MINISTRY STATEMENTS

“A positive school climate exists when all members of the school community feel safe, included, and accepted, and actively promote positive behaviours and interactions. Principles of equity and inclusive education are embedded in the learning environment to support a positive school climate and a culture of mutual respect. A positive school climate is a crucial component of bullying prevention.”

Taken from Ministry of Education of Ontario, PPM 145

“Bullying will not be accepted on school property, at school-related activities, on school buses, or in any other circumstances (e.g., online) where engaging in bullying will have a negative impact on the school climate.”

Taken from Ministry of Education of Ontario, PPM 144

HEALTHY RELATIONSHIPS

Healthy Relationships are grounded in treating one another with dignity and respect.

Healthy Relationships provide:

- A sense of security and stability
- Basic needs
- A sense of being valued and belonging
- Support and guidance to learn essential skills and understanding
- Protection from excessive stress

All adults who are responsible for children play an important role in teaching them about healthy relationships and bullying. Teachers, parents/guardians, and other adults involved in children’s lives:

- Model relationship skills and attitudes
- Create positive situations in which children and youth interact.

Children will only learn positive relationship skills and attitudes if they observe and interact with adults who model positive relationships when interacting with children and adults.

HARMFUL INTERACTIONS

Bullying: Aggressive and typically repeated behaviour by a pupil where...

- (a) the behaviour is intended by the pupil to have the effect of, or the pupil ought to know that the behaviour would be likely to have the effect of,

 - ii. creating a negative environment at a school for another individual, and

- (b) the behaviour occurs in a context where there is a real or perceived power imbalance between the pupil and the individual based on factors such as ancestry, size, strength, age, intelligence, peer group power (e.g., popularity), economic status, social status, religion, ethnic origin, sexual orientation, family circumstances, gender, gender identity, gender expression, race, disability or the receipt of special education

For the purposes of the definition of “bullying”, behaviour includes the use of any physical, verbal, electronic, written or other means.

Aggression: A response to conflict, threat or an internal emotional state of anger/irritability in which the intent to harm may or may not be present.

Conflict: A normal type of interaction that everyone should learn to navigate and resolve effectively. Conflict may be distinguished from other harmful interactions in that...

- (b) all parties are typically invested in resolving the conflict (or at least ending it)
- (c) conflict most often occurs among people who share an existing relationship: classmates, siblings, friends, partners, colleagues, etc.
- (d) tensions underlying the conflict are not related to identity (e.g., ancestry, race, ethnicity, gender, sexual orientation, religion) and may be amplified by stressors for one or both parties in conflict

Cyber-bullying: For the purposes of the definition of “bullying” seen here, bullying includes bullying by electronic means (commonly known as cyber-bullying), including,

Strengths and Goals

What the Data Tells Us – School Climate and Well-being Surveys and Other Data

As part of the on-going monitoring and evaluation process, schools gather data from various sources, including school climate surveys of students, staff and parents/caregivers every two years. Our school data indicates the following:

Strengths: The survey data for the 2020-2021 school year indicated the following areas:

- 90.2 % of the student respondents indicated that they feel safe at school
- 88 % of the student respondents also reported that they have NOT been or seen others being bullied at school
- 84 % of respondents feel they belong when they are at school
- 83 % Feel safe at school
- 81 % regard their school environment as welcoming and,
- Overall belonging and connectedness was at 75%

Based on the analysis of various sources of data, our school has identified specific bullying prevention and intervention goal statements for this school year. These goal statements will drive our actions for this year. Outcomes will be monitored and assessed using a continuous improvement cycle.

Goals:

- **Bullying Awareness (Physical, Verbal, Social, and Electronic):** Clearly defining what bullying is, to our staff, students and parents and guardians, and offering tools that can assist in dealing with challenging situations and personalities. Teaching students in particular to respond to challenges using WITS
- **Mental health/Wellness/Resilience Training:** Building positive school climate with a focus on respect for self and others. This is accomplished by offering resources and strategies to staff and our community as well as delivering restorative practices to ensure a welcoming school environment

- Equity and inclusive education: primarily focused on inherent indigenous rights, human rights and placing student identity at the core of all we do. Shifting educator practice to ensure that students see themselves reflected in all aspect of curriculum. What we value is reflected in what students, staff and families see, hear and do on a daily basis.

Proactive Approaches

What We are Doing in Our Classrooms and in Our School - Strategies that Promote a Positive School Climate

Our school is implementing a variety of strategies to support student well-being, affirm and promote diverse identities, and create a welcoming environment. These strategies involve students, staff, parents and community members as part of a whole school approach. Below are highlights of our strategies:

- Fostering Healthy Relationships/Fostering human rights: Embedding restorative practices on an ongoing basis, school teams, clubs and intramurals, student leadership opportunities through student council, mentoring and various affinity groups like the Black Student Movement (BSM), Muslim Student Association (MSA), Tamil Student Association (TSA), and various other student empowerment groups
- Self- regulation: School wide implementation of Zones of Regulation, and the use of various self regulation tools like WITS as proactive strategies to combat bullying
- Bullying Awareness and Prevention: Bullying prevention awareness week activities, Pink shirt Day activities, Mentor-Mentee program
- Character Education: Monthly classroom activities that focus on character building

How Student Voice is Present in Our School

Engaging students to help shape the learning environment is an important component of a whole school approach in promoting a positive school climate – a climate in which *each and every* student feels that they matter. The following examples are highlights of student voice in action at our school:

As noted in bullet point two above, student voice is represented through opportunities for leadership through a variety of groups and programs. These help to center student identity, build relationships and promote student voice in the day-to-day operation of the school. Students are encouraged through these groups and other avenues to share their experiences and advocate for changes where needed. The following groups are student voice outlets:

- Muslim Student Association (MSA)
- Black Student Movement (BSM)
- Gay Straight Alliance (GSA)
- Tamil Student Association (TSA)
- Student Council
- Mentorship Program
- Women's Empowerment Group

How we create the conditions whereby students feel safe to report bullying and other harmful interactions at our school.

Creating the conditions within which students may feel safe to report begins with investment in relationship and the promotion of a Positive School Climate. Additionally, procedures may be put in place that facilitate students and parent/caregiver reporting as well as procedures that outline the requirements for staff to report such instances in accordance with legislation.

Student Reporting:

- Reporting bullying or other harmful interactions to a trusted adult (e.g., parent/caregiver, teacher, administrator, support staff, police liaison officer).
- Using the “Report Bullying Now” button on the school/board website provides students a more discreet means of reporting bullying behaviours.

Staff Reporting:

- “The Education Act states that an employee of the board who becomes aware that a student at the school of the board may have engaged in a serious student incident shall report the matter to the principal as soon as reasonably possible” (PPM 144)
- When appropriate, staff complete and submit the “Safe Schools Incident Reporting Form – Part I” to the principal. The principal provides written acknowledgement to the employee using the “Safe Schools Incident Reporting Form – Part II” (PPM 144)

Parent/Community Reporting:

- Reporting bullying and other harmful interactions to the classroom teacher, support staff and/or administration
- Using the “Report Bullying Now” button on the school website

Strategies that help students to feel safe to report (e.g., relationship-building strategies, reporting mechanisms, awareness-building)

- Open door policy to ensure that all students know they can report any incident of bullying without fear of repercussion
- Responding to any student behaviour that is likely to have a negative impact on the school climate
- Conducting a school-based investigation (consulting the Police/Board Protocol, when necessary) considering mitigating and other factors
- Contacting the parents of the person(s) who has been harmed and the parents of the person(s) who has caused harm, in accordance with legislation
